

Sacred Heart School Petone

Wednesday 11 March 2020

Junior Syndicate trip to Wellington Botanical Gardens Wednesday 25 March

We will be visiting the **Discovery Garden** in Wellington Botanical Gardens.

Students will be learning about Rongoā/Maori traditional medicine and the use of cultivated plants for healing. In this programme we take a walk to identify the native trees and discuss their uses, make observational drawings about the plants in the 'Lotions and Potions' garden and make an itchy bite balm.

Everyone will also be visiting the Children's Playground.

Children need to come in their P.E. gear. They need to bring, packed into their school bag;

Packed lunch and drink bottle

School jersey

School sunhat

Raincoat

Please ensure you provide your child's teacher with any necessary medications (e.g. inhalers).

We will require lots of parent help on the trip. Please indicate your availability below.

The Junior Team
